Lyrics: AU Collaborative

Not so long ago, a dream in my heart was born
And I prayed and hoped that it would someday, become reality...
Sometimes the voice within, seemed afraid to sing out and begin
Though I know it never lost... Its soul... It flows...

Stand up
Keep the faith
Believe the impossible
For the Lord is true

Dharthi gagan jhoomo sangh sangh tere
Gaayein taraane naye
Geeton ki khushbhu se meheki fiza
Gata hai sara samaa
Khwaab sa hai apna jahaan
Sara jahaan...

Whispers call my name,
I look up to the sky
Silent reverie
A single note that no one heard but I
I look inside
I'm not alone I realise...

Look ahead and you will see the light - Come on and see the light

Jaana hai humko wahaan
Le jaayein dishaayein jahaan
Anjani raahon main ab goonjthi hai sada
Khushiyon ki yeh daastan

Take it in your stride
Walk another mile
Can you see the light
That we hold for you and I
We're here to build the fire
Burning inside
Give it another try... Give it another try... Give it another try...

Dare to dream
Keep the faith
Apna lo yeh jahaan
Chulenge hum - Aasmaan
Together... We Can!
